📄 Job Description: Data Analyst

Job Title: Data Analyst

Location: Chennai / Hybrid

Experience: 1–3 Years

🧠 Role Overview

We are looking for a detail-oriented Data Analyst to transform raw data into actionable insights. The candidate will work closely with business teams to analyze trends, build dashboards, and support data-driven decision-making.

🔧 Key Responsibilities

Collect, clean, and analyze large datasets from multiple sources

Perform exploratory data analysis (EDA) to identify trends and patterns

Create dashboards and reports using tools like Tableau or Power BI

Write SQL queries to extract and manipulate data

Collaborate with stakeholders to understand business requirements

Present insights using data visualization techniques

Ensure data accuracy and integrity

💻 Required Skills

Strong knowledge of SQL

Experience with Python (Pandas, NumPy, Matplotlib)

Data visualization tools (Power BI / Tableau)

Understanding of statistics and probability

Excel (advanced functions, pivot tables)

Basic knowledge of data cleaning and preprocessing

⭐ Preferred Skills

Experience with machine learning basics

Familiarity with ETL pipelines

Knowledge of Big Data tools (Hadoop, Spark)

🎓 Qualifications

Bachelor’s degree in Computer Science, Statistics, Mathematics, or related field

Certifications in Data Analytics are a plus

📊 What You’ll Work On

Sales trend analysis

Customer behavior insights

Performance dashboards

Predictive analytics support
